

## Key Improvements to Model 2015 AutoDeploy™

To: All Customers and Distributors of STEMCO Aerodynamics Products

STEMCO is pleased to announce key improvements to the 2015 model of the TrailerTail® AutoDeploy system.

**TrailerTail®**  
BY STEMCO

### Generation 2 Speed Sensor

- Eliminates nighttime driver distraction
  - Driver notification light turns off after 60 seconds (closed TrailerTail®)
- Improved speed measurement accuracy in inclement weather
- ESD protection added to circuit board

TrailerTail is CLOSED

Light On

### Moisture Ingress Prevention

- Features high-pressure over-molds on all electrical connectors
- Redundant sealants added to speed sensors and electronic latches

Model 2015 AutoDeploy™ has been fully submerged in fluid and cycled between +176°F and -40°F with no moisture ingress.

### Comprehensive Troubleshooting

- Diagnostic Tester and easy-to-use troubleshooting guide

Thank you for your continued support of STEMCO products!
