AIR SPRINGS

## DELIVERING COMFORT AND PERFORMANCE

STEMCO® Super Cushion® Rolling Lobe Air Springs feature heavy-duty materials and construction to deliver industry-leading vibration isolation, weight savings and longevity. Designed for unrivaled comfort and performance, they reduce driver fatigue, decrease component wear, lower downtime and improve safety.

### Superior Rubber Chemistry

Chemical additives infused into natural rubber walls provide exceptional ozone resistance, resulting in less flex-cracking and longer service life.

### Reduced Weight

Innovative materials and design technology allow Super Cushion Air Springs to weigh less than competitive products for added fuel savings.

### Bracket Dimples

Non-elongated design provides a more secure mounting for the air spring, increasing longevity and reducing vibration and misalignment.

### Internal Wall Cord

High-strength, extra-tight cord provides exceptional wall and internal splice strength.

### Comfort

Reduced driver fatigue and increased safety.

### Equipment Longevity

Improved vibration isolation reduces wear and tear on truck and trailer components.

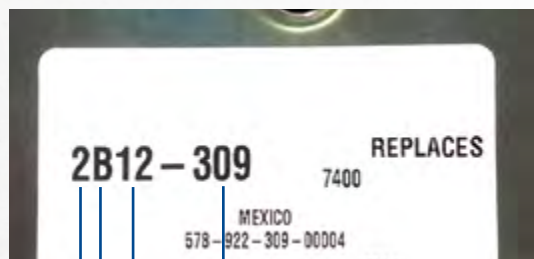

# INNOVATIVE DESIGN. INDUSTRY-LEADING PERFORMANCE.

## ROLLING LOBE AIR SPRING COMPONENTS

## PRODUCT IDENTIFICATION SYSTEM

This convenient identification system lets you easily specify the Super Cushion product that best meets your Air Spring needs.

Number of convolutions

- 1** Single Convolute
- 2** Double Convolute
- 3** Triple Convolute

Type of Air Spring

- B** – Bellows
- R** – Rolling Lobe
- S** – Sleeve (Beadles Rolling Lobe-Type)

This is the nominal outside working diameter of the air spring assembly, in inches. (It is not the maximum diameter.)

These numbers represent a unique identifier for this particular air spring

## RUGGED PERFORMANCE. GENTLE RIDE.

Featuring a reinforced design, ultra-durable bead plates, corrosion preventative coatings and innovative rubber chemistry, **STEMCO Super Cushion Rolling Lobe Air Springs** provide the vibration isolation and durability to help your fleet reach new levels of productivity and profitability.

## SUPER CUSHION AIR SPRINGS REDUCE WEAR AND TEAR ON:

- Electrical equipment and instruments
- Cab and body
- Axles
- Transmission
- Trailer components
- Hinges
- Lights
- Rivets
