International	FA-101, FA-104	8,200	1660271C92...	K102I	Double Lock/ Common on UPS Trucks

We offer a king pin kit for all makes and models in the market. We can also cross-reference any OE kit # for you or your customer. If you do not have access to the axle code or kit # call our Tech Line (888-854-6474EXT#2) with the vehicles VIN # to match it to the kit that is needed.

Spring Pins: We offer the only grease grooved spring pin in the industry!

Our Spring Pins fit into any existing spring eye. Just adding our Spring Pins alone will extend life over what you are currently using. To extend life 3 times longer use one of the two bushing options below.

We have 2 Bushing Options: the *Qwik Kit Bushing (BSA)* has the Spiral Steel Bushing and the *Lubraflex Bushing (BSL)* has a Slinky. Both options are put into an assembly with a seal on each end. This keeps the dirt and grime out and the grease in. Combine our pin with either one of our bushing options listed and we extend life 3 times longer than what you would get out of your original equipment.
