

STEMCO LP, A division of EnPro Industries is committed to excellence and continual improvement in our Environmental, Health and Safety (EHS) practices and performance. The policy of STEMCO LP is to conduct all aspects of our business and operations in a manner that is protective of human health and the environment.

Each person shares the responsibility to incorporate EHS awareness into daily activities. To this end, as a global enterprise we strive to implement the following “EHS Principals”:

- Design Products and use processes that have minimal EHS impacts during production, use and disposal.
- Operate our facility in a way that protects and prevents pollution of the environment, reduces waste generation, and promotes human health and safety.
- Educate and motivate management and colleagues to work in an environmentally responsible and safe manner. Safety excellence means:
 - Commitment to the prevention of injury and ill health.
 - Management, which includes all levels, is accountable for creating a safe workplace.
 - All colleagues are responsible for safety as a condition of employment.
 - All incidents are investigated promptly to determine cause, correct them, and thus prevent reoccurrence of similar incidents.
 - Colleagues, Contractors and Visitors are authorized and obligated to stop work if it poses an imminent danger.
- Promote public accountability and corporate environmental leadership by sharing information on environmental experiences when appropriate.
- Comply with government regulations to conserve and recycle resources and maintain a health workplace.
- Set measurable goals and the monitor our EHS practices in our business.
