The Platinum Performance System is comprised of STEMCO's Guardian HP or Discover Seal, Pro-Torq Spindle Nut, and the Sentinel Hub Cap, used as wheel-end system components.¹

STEMCO Products, Inc warrants to the Buyer that all components will be free from defects in material and workmanship. This warranty applies to Platinum Performance System components installed on vehicles licensed for on-highway, linehaul use only, under normal use and service. This warranty extends for a period of three year unlimited mileage on trailers and tractors, from the date of manufacture.

This warranty excludes normal wear and tear; as well as any component which fails, malfunctions or is damaged as a result of improper installation or adjustment, accident, improper use, or improper or insufficient maintenance (including use with worn components such as spindles or bearings).

The Buyers exclusive remedy under this warranty shall be the repair or replacement of STEMCO components, but not the cost of removal or installation. STEMCO reserves the right to require that all warranty claim components are available and/or returned for review and evaluation. STEMCO shall not be liable for any claim, whether arising from breach of contract or warranty claims of negligence or negligent manufacture, in excess of the purchase price. In no event shall STEMCO be liable to special, incidental, indirect, consequential or collateral, losses or damages of any kind

This warranty is in lieu of all other warranties or conditions, expressed or implied, including any implied warranty of merchantability or fitness for particular purpose. This is the only warranty offered by STEMCO and no STEMCO employee or representative is authorized to make any additional warranty terms on behalf of STEMCO.

¹Original equipment manufacturers are eligible to upgrade to the Platinum Performance System Plus by including heavy duty STEMCO bearing cups and cones to the contents of the Platinum Performance System.
