STEMCO®

TRACKING DISTANCE? NO PROBLEM.

To make roadways safer, STEMCO has provided the trucking industry with reliable and innovative mileage solutions for more than 70 years. We leverage the latest technologies to provide solutions that reduce vehicle maintenance costs and increase fleet safety—helping fleets run a more cost effective business with maximum performance and value. Whether for maintenance purposes or logging miles, accuracy is critical — and STEMCO delivers this with data more accurate than competing GPS solutions.

HUBODOMETER®

Guaranteed to deliver the best in mileage accuracy, the Hubodometer® is the most economical, accurate and convenient way of tracking mileage for preventive maintenance, leases and warranties.

- Reliable mileage information
- Spring-loaded counter-weight eliminates spin for greater accuracy
- Preset your Hubodometer® to collect customized data
- 500,000-mile warranty
- Product number: 650-XXXX

DataTrac® DataTrac® PRO

With unparalleled accuracy, the DataTrac® and DataTrac® Pro Electronic Hubodometers are indispensable tools for scheduling maintenance, determining lease charges, and managing costs per mile.

- Large, easy-to-read LCD display
- Compact size, easy to mount
- 500,000 mile/5-year warranty
- No moving parts increases reliability and durability
- DataTrac is factory programmed
- DataTrac Pro is field programmable
- DataTrac product number: 600-5REV (miles), 600-4REV (kilometers)
- DataTrac Pro product number: 600-9999

DATATRAC® BATTERY
Significantly improved life of your equipment with the DataTrac® Battery.

- Now supporting battery life up to 10 years
- Extends warranty from three to five years

DataTrac SVT™

Handwritten logs aren't needed with the DataTrac® SVT Electronic Mileage Sensor, an electronic sensor that provides mileage collection and can schedule maintenance by mileage activity rather than time.

- Electronic mileage sensor
- 500,000 mile/5-year warranty
- Two versions available — Tamperproof and Lifetime Reprogrammable
- Wireless readings
- Easily imports readings to fleet management software
- DataTrac SVT (Reprogrammable) product number: 604-8004
- DataTrac SVT (Tamperproof) product number: 604-8005

GATE READER | SVT™

Automate and manage mileage and fuel information to improve fleet operations with the GateReader SVT, an innovative solution to better inform personnel by automatically collecting readings.

- Automatic data collection
- WiFi capability eliminates monthly cellular charges
- Reads all DataTrac® SVT sensor types
- Eliminates costly telematics hardware need for each trailer
- Product number: 880-1000

HAND READER | SVT™

The power of data collection in the palm of your hand. The HandReader SVT is a handheld device used to collect and store data such as mileage, fuel, coolant and oil.

- Reads all DataTrac SVT mileage counters
- Stores up to 400 readings
- Supports fuel, coolant and oil entry
- Programs DataTrac SVT Reprogrammable
- Product number: 820-0000
- HandReader SVT/Vesper Starter Kit with SVT Download Pod product number: 820-1000

DATATRAC® PROGRAMMERS

Working in conjunction with DataTrac® Pro and DataTrac® SVT, the DataTrac® Programmer can program in mileage presets and tire calibrations.

- Programmable to in mileage presets, tire calibrations, and distance units in miles, kilometers, revolutions with calibrations 1-1999.
- Easy-to-read LCD display
- Battery powered and portable for programming
- Product number: 801-6000

SVT
STEMCO® VEHICLE TECHNOLOGY

STEMCO Vehicle Technology (SVT) indicates a STEMCO product that is equipped with smart technology. STEMCO offers several mileage solutions products shown below that are designed with SVT. With better access to data, STEMCO products help improve maintenance efficiency, while increasing fleet safety.

WHEEL END

GATE READER | SVT

Automate and manage mileage and fuel information to improve fleet operations with the GateReader SVT, an innovative solution to better inform personnel by automatically collecting readings.

The STEMCO GateReader SVT is WiFi compatible, eliminating monthly cellular charges. It reads all DataTrac® SVT sensor types and eliminates the need for costly telematics hardware for each trailer.

DataTrac® SVT

Provides mileage data collection and can be used to schedule maintenance by mileage activity rather than time. DataTrac® SVT can be used in conjunction with the HandReader SVT or STEMCO GateReader SVT to capture, download and analyze accurate mileage data.

HAND READER | SVT

A handheld reader that receives sensor data via wireless signals. Information can be downloaded using Vesper™ for further analysis and storage.

VESPER™

Vesper™ is a simple PC based software solution that allows downloading of DataTrac® SVT sensor data from your HandReader SVT to your PC. Files are saved in a .csv file format and may be opened and or manipulated using MS Excel.

HandReader SVT/Vesper Starter Kit with SVT Download Pod product number: 820-1000

WEB PORTAL | SVT

WebPortal SVT wirelessly collects readings from the GateReader SVT or manually by using a HandReader SVT. Providing the right information at the right time, WebPortal SVT helps reduce labor and maintenance costs.
