NEVER MISS A MILE

**INNOVATIVE MILEAGE
SOLUTIONS**

STEMCO®
Making the Roadways Safer®

TRACKING DISTANCE? NO PROBLEM.

To make roadways safer, STEMCO has provided the trucking industry with reliable and innovative mileage solutions for more than 70 years. We leverage the latest technologies to provide solutions that reduce vehicle maintenance costs and increase fleet safety—helping fleets run a more cost effective business with maximum performance and value. Whether for maintenance purposes or logging miles, accuracy is critical – and STEMCO delivers this with data more accurate than competing GPS solutions.

WHEEL END

DataTrac® SVT™

Handwritten logs aren't needed with the DataTrac® SVT Electronic Mileage Sensor, an electronic sensor that provides mileage collection and can schedule maintenance by mileage activity rather than time.

- Electronic mileage sensor
- 500,000 mile/4-year warranty
- Two versions available – Tamperproof and Lifetime Reprogrammable
- Wireless readings
- Easily imports readings to fleet management software
- DataTrac SVT (Reprogrammable) product number: 607-8004
- DataTrac SVT (Tamperproof) product number: 607-8005

HUBODOMETER®

Guaranteed to deliver the best in mileage accuracy, the Hubodometer® is the most economical, accurate and convenient way of tracking mileage for preventive maintenance, leases and warranties.

- Reliable mileage information
- Spring-loaded counter-weight eliminates spin for greater accuracy
- Preset your Hubodometer® to collect customized data
- 500,000-mile warranty
- Product number: 650-XXXX

DataTrac® DataTrac® PRO

With unparalleled accuracy, the DataTrac® and DataTrac® Pro Electronic Hubodometers are indispensable tools for scheduling maintenance, determining lease charges, and managing costs per mile.

- Large, easy-to-read LCD display
- Compact size, easy to mount
- 500,000 mile/4-year warranty
- No moving parts increases reliability and durability
- DataTrac is factory programmed
- DataTrac Pro is field programmable
- DataTrac product number: 600-5REV (miles), 600-4REV (kilometers)
- DataTrac Pro product number: 600-9999

GATE READER | SVT™

Automate and manage mileage and fuel information to improve fleet operations with the GateReader SVT, an innovative solution to better inform personnel by automatically collecting readings.

- Automatic data collection
- WiFi capability eliminates monthly cellular charges
- Reads all DataTrac® SVT sensor types
- Eliminates costly telematics hardware need for each trailer
- Product number: 880-2000

DataTrac® Programmer

Working in conjunction with DataTrac® Pro, the DataTrac® Programmer can program in mileage presets and tire calibrations.

- Programmable to in mileage presets, tire calibrations, and distance units in miles, kilometers, revolutions with calibrations 1-1999.
- Easy-to-read LCD display
- Battery powered and portable for programming
- Product number: 801-6000

DataTrac® Battery

Significantly improved life of your equipment with the DataTrac® Battery.

- Now supporting battery life up to 10 years
- Extends warranty from three to four years

STEMCO® VEHICLE TECHNOLOGY

STEMCO Vehicle Technology (SVT) indicates a STEMCO product that is equipped with smart technology. STEMCO offers several mileage solutions products shown below that are designed with SVT. With better access to data, STEMCO products help improve maintenance efficiency, while increasing fleet safety.

GATE READER | SVT

Automate and manage mileage and fuel information to improve fleet operations with the GateReader SVT, an innovative solution to better inform personnel by automatically collecting readings.

The STEMCO GateReader SVT is WiFi compatible, eliminating monthly cellular charges. It reads all DataTrac® SVT sensor types and eliminates the need for costly telematics hardware for each trailer.

WEB PORTAL | SVT

WebPortal SVT wirelessly collects readings from the GateReader SVT. Providing the right information at the right time, WebPortal SVT helps reduce labor and maintenance costs.

SVT Download Pod product number: 820-0001

DataTrac SVT

Provides mileage data collection and can be used to schedule maintenance by mileage activity rather than time. DataTrac® SVT can be used in conjunction with the HandReader SVT or STEMCO GateReader SVT to capture, download and analyze accurate mileage data.

Fleet Manager Cell Phone Application

Access information you need quickly from your mobile phones with STEMCO's Fleet Manager App. Easily downloadable and available for multiple users, it's a convenient way for you to keep personnel informed of new opportunities for improving fleet operations.

FEATURE	SYNC SERVER SYSTEM	WEB PORTAL SYSTEM
Mobile App Compatible	✓	✓
Multi-User Data Syncing	✓	✓
User Permission Tri-Level Controls (Admin, Power, Base)	✓	✓
Software Fees	Free	Trial period followed by paid subscription
Security Model	Basic	Enhanced
User Management Model	Basic, mobile app based	Full, User Management Model on the Web Portal
Multi-Terminal Support		✓
Gate Reader Compatible		✓
Historical Record Retention	*	5 years
Web Portal Interface		✓
Business System API Integration Available		✓
Fuel and Fluids Logging		✓

*Customer can save real-time snapshots of information to a .csv file sent via email.
