# MANUFACTURING & OPERATIONS: A GLOBAL PRESENCE

## A COMMITMENT TO EXCELLENCE

Founded in 1951, STEMCO, which stands for Specialized Truck Equipment Manufacturing Company, offers a diverse line of long-life, safety-focused products for the commercial vehicle market. In recent years, STEMCO has deployed an adjacency strategy to broaden our offering with products and solutions that fall within our focus on making the roadways safer.

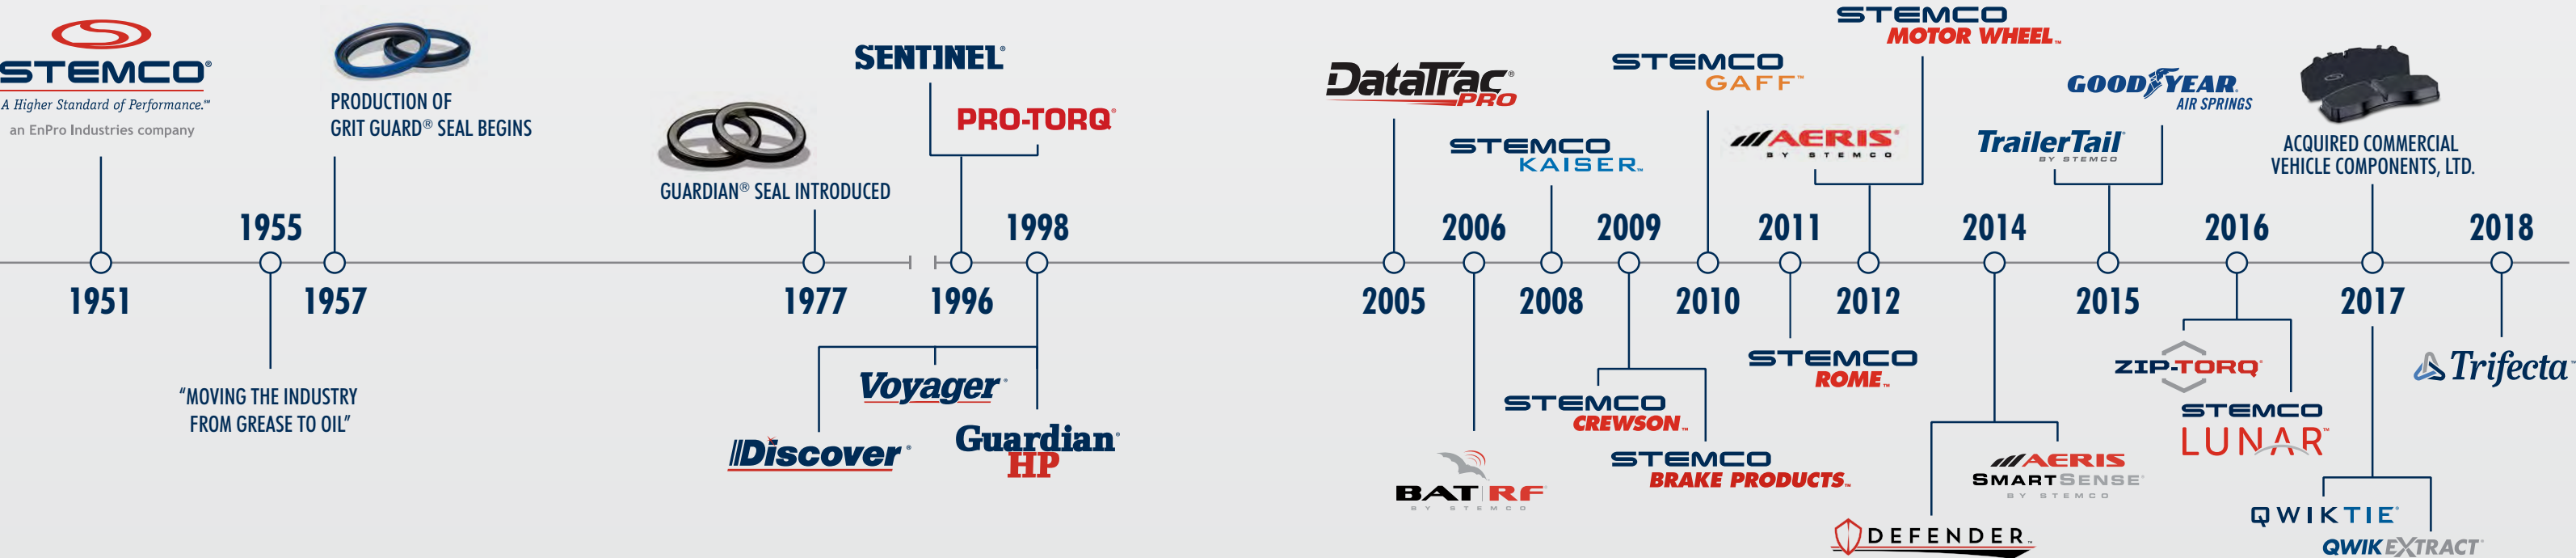

Our commercial vehicle solutions are classified into four major groups:

- **Wheel end components** — Including seals, spindle fasteners, bearings, hub caps and mileage counters
- **Suspension products** — Including king pins, spring pins, bushings, polyurethane components, air springs and heavy-duty shop equipment
- **Brake products** — Including brake shoes, friction, automatic brake adjusters, new lined wheel kits, and brake drums
- **Innovative tire and mileage solutions** — Including the BAT RF® technology, TrailerTail® and the Aeris® tire inflation product lines

Throughout our expanding portfolio of products and solutions, one thing remains constant: Our dedication to the commercial vehicle industry and holding ourselves to A Higher Standard of Performance.™

STEMCO is an EnPro Industries, Inc. (NYSE: NPO) company. EnPro Industries, Inc. is a leader in sealing products, metal polymer and filament wound bearings, components and service for reciprocating compressors, diesel and dual-fuel engines and other engineered products for use in critical applications by industries worldwide.

## A HISTORY OF INNOVATION

## LEAN ENTERPRISE

Focused on maximizing value and quality for our customers. Some elements of our lean manufacturing include:

- Waste elimination
- Continuous improvement
- 48-Hour order turnaround
- 24+ inventory turns
- 8 ISO 9000 facilities

## ISO/TS 16949

Automotive industry quality management certification for continual improvement, defect prevention and reduction of waste.

## EXCELLENCE IN SAFETY

Three times in the last five years, EnPro Industries was named one of America's Safest Companies by *EHS Today*.

## TESTING CAPABILITIES

### 80 Wheel End Dynamics Stands

- 580 rpm, + offset

### Contamination Simulator

- Slurry, water, saltwater

### Pinion Seal Tester

- 3000 rpm, + offset

### Instron

- 30,000 lb load capability

### Engineering Modeling & Analysis Tools

- SOLIDWORKS
- AutoCAD
- CATIA
- ANSYS

### Environmental Dynamics

- Cold & hot temperature
- Vibration & impact

### Other Machines

- Bearing testers
- Material testing
- Axle nut testing
- Wheel end monitoring
- Custom test setups
- Custom machine building
- Dynamometer
- SAE wear testing
- FAST test
- Accelerated king pin durability test

**STEMCO**  
**WHEEL END™**

STEMCO has provided the commercial vehicle market with world-class components and systems since 1951, and provided the technology to move the industry from hard-pack grease to oil. STEMCO is well known for high-performance wheel seals, hub caps, spindle fasteners, mileage counters and the new Trifecta™ pre-adjusted hub assembly. STEMCO engineers wheel end solutions designed to meet the performance expectations of almost every fleet in an effort to help improve safety and reduce operating costs.

**BRAKE PRODUCTS™**

## YOUR STARTING POINT FOR STOPPING POWER

For over 60 years, STEMCO has supplied only the highest-quality wheel end components to the commercial vehicle market. By offering application-specific, high-performance braking solutions, as well as industry-unique products and processes like CentriFuse® and Crewson™, STEMCO Brake Products™ is providing an answer to the question: "How do I get quieter, safer, brake systems that run cooler and last longer?"

## STEMCO SUSPENSION PRODUCTS™

### HIGH-PERFORMANCE PARTS: SUPERIOR SUSPENSION SOLUTIONS

STEMCO has over 50 years of experience providing the longest lasting, easiest to install no-ream steering knuckle king pins, spring pins and bushings. The QwikKit® king pin kit is easy to install, and its spiral steel bushing outperforms and outlasts the competition. The new QWIKTIE® tie rod assembly optimizes both safety and productivity by fitting more than 80% of straight tie rod assemblies on the market. With superior mechanical and chemical properties, STEMCO GAFF® polyurethane offers high-performance replacement parts for the rubber undercarriage system. The Axle Pro Equipment™ (APE) provides a revolutionary solution to enhance axle eyes. Replacing king pins is made safer and faster with our new QwikExtract® king pin removal system. The addition of Goodyear® SuperCushion® air springs adds a new dimension of performance, durability, and safety to our suspension product line.

INNOVATIVE TIRE & MILEAGE SOLUTIONS | ITMS™

### MAXIMIZING PROFITABILITY THROUGH TECHNOLOGICAL INNOVATION

**Innovative Tire and Mileage Solutions (ITMS)**  
ITMS focuses on improving fuel economy and increasing tire life. The Aeris® advanced automatic tire inflation system keeps commercial trailer tires properly inflated using air pressure from the trailer's braking system. BAT RF® by STEMCO uses advanced RF-enabled electronic sensors and readers, information management tools, and alert mechanisms to provide companies with tire inflation and other data that they can use to optimize tire life and fuel economy. TrailerTail® rear fairings reduce drag and turbulence at the back of the trailer, increasing fuel economy by up to 5.5%, or up to 10% or more when combined with our EcoSkirt™ trailer skirt.
