

WHEEL END

NEVER MISS A MILE

**INNOVATIVE MILEAGE
SOLUTIONS**

STEMCO®
Making the Roadways Safer®
— An ENPRO Company —

DataTrac® SVT™

Handwritten logs aren't needed with the DataTrac® SVT Electronic Mileage Sensor, an electronic sensor that provides mileage collection and can schedule maintenance by mileage activity rather than time.

- Electronic mileage sensor
- 500,000 mile/4-year warranty
- Two versions available – Tamperproof and Lifetime Reprogrammable
- Bluetooth wireless beacon is read by Gate Reader/Fleet Manager app/third-party telematics
- DataTrac SVT (Reprogrammable) product number: 607-8004
- DataTrac SVT (Tamperproof) product number: 607-8005
- Maintenance-free sealed battery typically provides a 10-year lifespan

HUBODOMETER®

Guaranteed to deliver the best in mileage accuracy, the Hubodometer® is the most economical, accurate and convenient way of tracking mileage for preventive maintenance, leases and warranties.

- Reliable mileage information
- Spring-loaded counter-weight eliminates spin for greater accuracy
- Preset your Hubodometer® to collect customized data
- 500,000-mile warranty
- Product number: 650-XXXX

DataTrac® DataTrac® PRO

With unparalleled accuracy, the DataTrac® and DataTrac® Pro Electronic Hubodometers are indispensable tools for scheduling maintenance, determining lease charges, and managing costs per mile.

- Large, easy-to-read LCD display
- Compact size, easy to mount
- 500,000 mile/4-year warranty
- No moving parts increases reliability and durability
- DataTrac is factory programmed
- DataTrac Pro is field programmable
- DataTrac product number: 600-5REV (miles), 600-4REV (kilometers)
- DataTrac Pro product number: 600-9999
- Maintenance-free sealed battery typically provides a 10-year lifespan

GATE READER | SVT™

Automate and manage mileage to improve fleet operations with the GateReader SVT, an innovative solution to better inform personnel by automatically collecting readings.

- Automatic data collection sent to the STEMCO WebPortal SVT
- Built-in cellular modem, fully managed by STEMCO
- Reads all DataTrac® SVT sensor types
- Lower cost mileage collection solution vs. expensive telematics on every trailer
- Product number: 882-1000

Fleet Manager SVT Cell Phone/Tablet Application

This great fleet management tool is conveniently available on your cell phone/tablet. The STEMCO Fleet Manager app allows you to program the DataTrac SVT as well as maintain synchronized mileage readings with either the basic SyncServer or the full featured STEMCO WebPortal SVT.

- Programming tool is used to set the configuration and make the vehicle assignment
- Enables Fuel/Fluid entry
- Available for both Android and iOS phone or tablet
- Multi-Language support for English, French, Spanish and Portuguese

DataTrac® Programmer

Working in conjunction with DataTrac® Pro, the DataTrac® Programmer can program in mileage presets and tire calibrations.

- Programmable to in mileage presets, tire calibrations, and distance units in miles, kilometers, revolutions with calibrations 1-1999.
- Easy-to-read LCD display
- Battery powered and portable for programming
- Product number: 801-6000

STEMCO® VEHICLE TECHNOLOGY

STEMCO Vehicle Technology (SVT) indicates a STEMCO product that is equipped with smart technology. STEMCO offers several mileage solutions products shown below that are designed with SVT. With better access to data, STEMCO products help improve maintenance efficiency, while increasing fleet safety.

GATE READER | SVT

Automate and manage mileage to improve fleet operations with the GateReader SVT, an innovative solution to better inform personnel by automatically collecting readings.

The STEMCO Gate Reader SVT contains a built-in modem, which is completely managed by STEMCO. It reads all DataTrac® SVT sensor types and eliminates the need for costly telematics hardware for each trailer.

WEB PORTAL | SVT

WebPortal SVT wirelessly collects readings from the GateReader SVT. Providing the right information at the right time, WebPortal SVT helps reduce labor and maintenance costs. It also includes a web service for automatic import to fleet management EAM solutions.

DataTrac SVT

Provides mileage data collection and can be used to schedule maintenance by mileage activity rather than time. DataTrac® SVT can be used in conjunction with the STEMCO Fleet Manager cell phone application or STEMCO GateReader SVT to capture, download and analyze accurate mileage data.

Fleet Manager Cell Phone/ Tablet Application

Access information you need quickly from your mobile phones with STEMCO's Fleet Manager App. Easily downloadable and available for multiple users, it's a convenient way for you to keep personnel informed of new opportunities for improving fleet operations.

FEATURE	SYNC SERVER SOLUTION	WEB PORTAL SOLUTION
Mobile App Compatible	✓	✓
Multi-User Data Syncing	✓	✓
User Permission Tri-Level Controls (Admin, Power, Base)	✓	✓
Software Fees	Free	Trial period followed by paid subscription
