

Steerable Lift Axle QwikKit King Pins

EXTENDED SERVICE LIFE AND MAXIMIZE ROADWAY SAFETY.

Lasting four times longer than aftermarket options, our steerable lift axle king pins maintain consistent lubrication and high impact strength for longer wear life in the most demanding applications.

Proven to Last

Kaiser was the original steel spiral bushing used for over 60 years with virtually zero warranty claims. This steerable axle king pin is proven to last.

Improved Reliability

STEMCO Kaiser™ No-Ream steel bushings and pins are grooved to provide an optimal stream of more than 300% more lubrication to high-wear areas with greaseable end caps. Our enhanced thrust washer design increases durability for longer service life and roadway safety.

Easy Installation

One of the only lift axle king pins of its kind, with spiral bushings that require no reaming and minimal tools.

Everything You Need for a Full Rebuild

The lift axle king pin kit comes with a hardware kit that includes everything you need for a rebuild — end caps, o-rings, seals, and wedge pins.

DURABLE. SAFE. LONG LASTING.

EVEN IN THE MOST DEMANDING APPLICATIONS

OEM KIT

STEMCO KAISER KIT

King pin and bushings
Complete hardware kit
Grooved king pin
No ream bushings
Greaseable end caps
Enhanced thrust washer
Bushing driver tools available
