OBSOLESCENCE NOTICE FOR TRACBAT, HANDBAT AND DOWNLOAD POD

STEMCO ANNOUNCES TRANSITION TO NEW TECHNOLOGY

We would like to provide you with some important updates regarding the TracBat electronic hubodometer. As part of our ongoing commitment to innovation and to provide our customers with the best possible solutions, STEMCO is taking the final step in the transition to the newer technology: Bluetooth DataTrac SVT. This change is aimed at enhancing performance and overall user experience. The DataTrac SVT functionally replaces the TracBAT; the STEMCO Fleet Manager Cell phone/tablet application functionally replaces the HandBAT and download POD. Consequently, the last available purchase date for TracBat will be August 28, 2026.

- **Last Available Purchase Date:** The final date to purchase TracBat will be August 28, 2026
- **Part Numbers:** 604-8004, 604-8005, 604-7999, 604-9999, 604-5530, 820-0000, 820-0001, 820-1000
- **Final Shipment:** Final shipments will take place by September 30, 2026
- **Warranty Information:** The buyer's exclusive remedy under our warranty shall be the replacement or reimbursement of STEMCO components at STEMCO's discretion, but not the cost of removal or installation

We are proud to have partnered with you over the last 15 years utilizing this product. It is our hope that this partnership continues as you adopt our newest technology, DataTrac SVT, pictured below.
